CS60 Upgrade Lizenz

- The prerequisite for the CS-UP-ID-PRO LICENSE is an existing CS60-UP-ID-LICENSE. The CS60-UP-PRO-LICENSE upgrades CS-UP-ID-LICENSE (item 213364), enabling the verification of data matrix codes and high-performance reading of directly marked codes on difficult surfaces.
- To activate the upgrade, the license file is simply transferred to the sensor using the nVision-i Start interface.
- The serial number of the device is required for the license creation. Please enter the serial number in the comment field when placing your order.
